I talked with Humane later she was calling the Tate Kunkle to verify where he'd gotten it before he sent it to us and ATSDR

Thank you Karen. I just asked Ron and Bill Early to see if Ron should pick up the ball now that Karen sent us the data. Ron will work with the attorneys to see if there are any issues but will be the lead at this point.

This is the data we received the first week of December containing organics, but not containing information on QA/QC or the locations of many of the wells sampled. As you'll see the reports are only a portion of lengthy reports.

Some of this is in duplicate but these are the files received from the resident's counsel on December 7, 2011
